

16 June 2020

Dear Neighbour

**Improving your wastewater network: Northern Interceptor wastewater pipe construction June 2020  
Update #2 – Delayed works**

Further to our letter on 5 June, we would like to update you on works in relation to the Northern Interceptor Project. As our previous letter mentioned, our construction team were intending to reinstate the roundabout at John Glenn Avenue and William Pickering Drive on Monday 8 June. Our works did commence on time, but unfortunately one of our deliveries was not correct and we were unable to continue these works as planned. We anticipate that the works will recommence in 5 – 6 weeks’ time.

We will update you when works are due to recommence.

**Any questions?**

If you have any questions or specific requirements regarding these works over this coming weekend, please email me at [Nlproject@water.co.nz](mailto:Nlproject@water.co.nz) or phone me directly on 021607774.

Yours sincerely

Claire Donnelly
