One Day Sale 10th Anniversary

Business

CONNECT. COMMUNICATE. COLLABORATE.

Kia ora tatou,

This is a final reminder from me that the BNH annual ONE DAY SALE, which is celebrating its 10th year, will take place on Saturday 3rd December. This is an ideal opportunity for retailers, wholesalers and distributors to:

- Get some great pre-Christmas brand exposure
- Maximise your pre-Christmas sales and cashflow
- Move excess or end-of-line stock
- Attract new customers to your products and services

Buying local and supporting local has never been more important so we've also added the "Taste Of North Harbour" opportunity for our hospitality businesses to get involved and we've secured a venue for pop up stores if you want to participate but can't use your own premises.

With more opportunities to participate than ever before there's no reason for you not to be included in this extravaganza. Registrations are still open but the deadline for your business to be showcased in the Shoppers Guide is next Monday 14th November, so if you're keen to be involved find out more [here](#).

The Team at BNH wish you all well, please don't hesitate to contact us if we can be of any assistance.

Ngā mihi mahana,

Kevin O'Leary

General Manager, Business North Harbour

Jenene Crossan is a serial tech entrepreneur and social justice advocate. She is described as passionate, vulnerable, insightful, creative, committed and tenacious.

Jenene came home from London in March 2020 with the original strain of Covid-19, which unfortunately went on to become what will likely be known as 'text book' Long Covid. She has subsequently become one of NZ's most well known support advocates for patients - lobbying government, pushing media & co-ordinating resources. She has spearheaded group administration, crowd funding for research & cross-department communications to ensure the lived experience is being heard. [Register here](#)

Turner Hopkins Webinar

Employ staff on Temporary Work Visas?

You must be accredited

By July 2022

TURNER HOPKINS
BARRISTERS, SOLICITORS & NOTARY PUBLIC

Do you recruit overseas staff or have existing employers on temporary Work Visas?

On 04 July 2022, Immigration New Zealand rolled out an entirely new Work Visa process for employers looking to secure new skills from offshore. As part of that process, employers were required to play a much bigger role in the Visa system with more responsibility and compliance being added to the equation.

The team at Turner Hopkins will provide local businesses with a brief but very informative virtual session, outlining the requirements, current processing issues and things to watch out for. We are aiming to host this in November (date to be confirmed) and will have a midday and early evening session available.

To register your interest, [click here](#), answer a few quick questions, and then they will email you with further details: <https://www.turnerhopkinsimmigration.co.nz/employer-registration>

Corinthian Drive Update

In September, AT notified BNH of the planned removal of the bus stops on Corinthian Drive. Although there are no current bus routes that travel the roughly 1.2km road, AT have told BNH that it is in its long-term plan to reintroduce the service.

With the street parking exceeding capacity we asked our members what they want. We had over 90% saying they want the bus stops to remain and asking for the service to be reintroduced.

After reviewing our submission AT have agreed to keep the bus stops however, they have said that at this stage there is no budget for reintroducing the service. Consequently, we need your help if you want the service to be reintroduced to Corinthian Drive please click on the link: <https://at.govt.nz/about-us/contact-us/> and tell AT!

Update: SH1 Upper Harbour Highway Northbound Offramp

While Auckland Transport has been working to upgrade the Upper Harbour Highway/Constellation Drive interchange, the far-left lane of the SH1 Upper Harbour Highway northbound offramp has remained closed. With the interchange upgrades nearly completed, the far-left lane will open in November.

Part of the upgrades in this area has included new traffic islands and streetlights, widening the footpaths and installing new traffic signal equipment including upgrading the IT systems which run the light phasing across interchanges, two onramps and two offramps. It's a complex location which requires 47 different light signal aspects to ensure everyone can get around and help manage congestion during peak times. Each of the 47 light signal aspects all need to 'talk to each other' to ensure optimised sequencing and efficiency of the interchange for all modes of transport – whether on foot, by bike or whilst driving a vehicle. Business North Harbour Night Security Patrols Update

From the 1st September 2022 **Vanguard Security Ltd** (who are locally based) commenced supplying night time security patrolling of our BID area. The requested daily reporting from Vanguard Security demonstrates on average per night the presence of their sign written security vehicles on our streets has increased from our (previous supplier of 6 hours per night) to average 9.5hrs per night. This increase in coverage hours as a crime prevention deterrent hopefully will discourage intending offenders out of our business Improvement district.
