MAP SITE 46

Business North Harbour provides a voice for your concerns, networking opportunities for your business development, and access to key stakeholders and decision makers who may affect your investment.

Crime Prevention

We support our members by managing the contracted nightly security patrols of our Business Improvement District area, 365 days of the year. We conduct safety, security, and communications briefings with the North Shore Police.

Events

Our events programme provides members with an extensive range of networking, mentoring, wellbeing, training, and educational opportunities.

Advocacy

We provide an advocacy voice to local and central government for our members' concerns on local, regional, and national issues, and provide access to key stakeholders and decision makers who may affect your investment.

Member Communications

Members are kept informed of relevant news, updates and events and are provided with useful business support resources and information.

Traffic, Transport & Roading

We work with all council-controlled agencies to develop initiatives that address access and environmental concerns, including congestion reduction. We also provide information on alternative modes of transport.

Business Directory

Our online Business Directory provides free listings for businesses operating within our Business Improvement District and allows businesses to update and manage their listing information online.

Sustainability

We provide the resources and operational support to encourage business sustainability by enabling members to access food waste and inorganic waste collections along with pallet and cardboard box swaps.

Other Services

Members can take advantage of more benefits and activities, such as our Showcase North Harbour business expo, One Day Sale, candidate employment and internship opportunities along with complimentary member hireage of the Business North Harbour training room.
